ABOUT ME

I am a cheerful person who loves to work with sales, design, retail and people. I have a long, wide and very interesting background and work experience. I am independent, trustworthy and highly-solving oriented. I look at myself as a creative person with a unique competitive instinct in me. My goals and aspirations are to become the best in my field and expand "always, in all ways." I am fearless and see myself as a "People's Person" who like to think outside the box and use my energy to reach new heights. My hobbies include cars and music. My music has been played around the world and streamed totally over 10 million times and I have made music with billboard stars like Sean Paul under the alias SynthKartell. Last time I visited Toronto I was there with Snoop Dogg for a charity basketball event.

My **purpose** for entering Canada, Toronto, is to branch out our existing business that we already have established successfully in Norway. We have our crew in Toronto ready for cooperation and they have been fully trained when they visited Norway in january 2017. We have done numerous analizys in the Canadian market and the respons was overwhelming. Our training in Norway have not only given amazing results and established 100's of new workplaces, but also people who trained with us, have had massive success themselves. We cannot wait to enter Canada with enthusiasm.

WORK EXPERIENCE

- **WowBrow AS. 2017 - present. Owner/Brand Manager.** Part owner in the fastest growing brow-concept in Norway. Very good results and key tasks include marketing, all in-house design and brandstrategy.
