APPLICATION FOR JOB AS AUTOMOTIVE TECHNICIAN

I am writing in response to my enquiring for an Automotive Technician.

We are South Africans currently in New Zealand and wanting to relocate to Canada.

I have been working at Tavcor Motor Group Volkswagen, Port Elizabeth, South Africa for 18 years.

In New Zealand I have been working on Japanese imports at a Mitsubishi dealership.

As you can see, I have had extensive work experience in the automotive field. I went on courses to keep track of the new technology. I am 2 courses away from qualifying as a Master Technician. I believe I could fit easily into your team.

I am a conscientious person who works hard and pays attention to detail. I'm flexible, quick to pick up new skills and eager to learn from others. I also have lots of ideas and enthusiasm.

I have excellent references and would be delighted if you would consider my application for the suitable position.

I count myself as goal driven and keen and would welcome the opportunity to work for your company. I look forward to hearing from you.

Yours sincerely

SHAUN VAN DER MESCHT
